

Message to workers', women's rights and human rights organisations and all the freedom-loving people of the world

As you are aware, the people of Iran, workers, teachers, pensioners, women and the youth, are engaged in a daily battle to overthrow the Islamic Republic towards attaining a happy and prosperous life, a life based on freedom and equality and free from oppression and discrimination, poverty and exploitation and religious state and superstition.

The people of Iran have risen up to pull down the Islamic Republic so as to free both themselves and the people of the world of this monster that has devastated the lives of two generations of people in Iran, the region and the world.

As shown by their slogans in their street protests when they shout: *"Our enemy is right here, it's a lie that it is America"*, the people of Iran want to be close to the people of the world, live in coexistence with advanced and civilised societies and regard themselves as sharing a common cause with people globally in their fight for a human life and a better world.

At the same time, the people of Iran observe how governments which are in power in your name, have in practice impeded and are impeding, the struggle of the people of Iran to overthrow the Islamic Republic, by appeasing, dealing and wheeling and legitimising the Iranian regime in pursuit of the interests of a propertied exploiting minority and the political and economic expediencies of the ruling class in those countries.

Tell the governments, who in your name have still not given up on the Islamic Republic, that the Islamic regime of Iran is not the representative of the people of Iran, but their murderer!

Put pressure on your governments to cut off their political ties with the Islamic Republic and close down its embassies, mosques and the rest of that regime's centres of terrorism and exported imams, mullahs, spies and officers of the Quds Force in the heart of Europe and other countries in the West.

Ask your governments to stop the representatives of this regime from taking part in international fora in the name of the people of Iran!

Put pressure on the International Labour Organisation (ILO), an organisation which bears the name of worker, to expel from the ILO a regime that has driven workers to absolute poverty and jailed workers' leaders!

Demand that global sporting organisations and federations expel the Islamic regime of Iran from world sport and the Olympic games for its imposition of gender apartheid on women, its persecution of players and for its crimes against humanity!

Ask your governments to arrest and put on trial for crimes against humanity the murderous fugitives of this regime wherever they set foot in those countries, just as it happened in the case of Hamid Noory in Sweden!

Ask your governments to freeze the bank accounts and block the investments of the officials of this regime and to return those assets to the people of Iran as the stolen assets of the people following the overthrow of this regime!

In one word, put pressure on your governments to boycott the Islamic Republic, throw it out of the world community and not recognise it as the government of Iran!

The Central Committee of the Worker-communist Party of Iran (WPI) sends its greetings to you freedom-loving people of the world, who have always stood by the people of Iran and supported their struggles. And at a time when the people of Iran have set about to topple this regime by their revolution, it calls for your active and powerful presence in support of the people of Iran for the overthrow of the Islamic Republic and the building of a free and equal society.

Central Committee of the Worker-communist Party of Iran
